

Mobile Apps one

Help your Board of Directors increase communication and involvement among its residents

Benefits of a Mobile HOA App

- Efficiency for board of directors to communicate within the community
- Ability to target messages for various sub groups like the board of directors
- Peace of mind with weather and emergency alerts, as well as immediate contact capabilities
- No additional hardware or software costs
- Provides up-to-date information for community events and activities
- Provides an efficient way to survey the residents of the community
- The community feels connected through regular communication, thereby building goodwill and a familial atmosphere
- Eases collection process for administrative staff through automatic reminders
- Ability to collect HOA fees from residents
- Saves money on sending newsletters, flyers, and other forms of communication that often get misplaced and sometimes ignored
- Promotes a green environment within your community by eliminating some paper correspondence

Features of Our Apps

- Don't need a website to have a mobile app
- Increase communications with Board of Directors, Managers and Residents
- Free Alerts using our push messages
- Emergency contact information
- Neighborhood & Community Contacts
- Safety contact information, including FEMA & Red Cross
